

K-love is a needed and vital part of my day. It serves to give members of my community a place to call if they need spiritual or emotional help. If it were to be replaced by an LPFM broadcaster we would lose a station that does more to build up and support the communities it reaches than any broadcaster you could replace it with. There is no good that can come from removing K-Love from the air by giving other broadcasters on the LPFM program more leverage. Please do not let this happen. It would only remove a positive influence from a community and world that needs more good influences.
